The International Association for Hydro-
Environment Engineering and Research

About us

The International Association for Hydro-Environment Engineering and Research (IAHR), founded in 1935, is a worldwide independent organisation of engineers and water specialists working in fields related to the hydro-environmental sciences and their practical application.

IAHR accomplishes its goals by a wide variety of member activities: working groups, research agenda, congresses, conferences, workshops and short courses, journals, monographs and proceedings.

Hosted by
Spain Water
and IWHR, China

HYDROLINK

Hydrolink is the primary magazine of the IAHR community and brings you the latest developments in the world of hydro-environment engineering and research! Hydrolink also provides a platform for reporting on IAHR Conferences, news from our members and offers a forum for exchanging information and spreading the word on topics and news relevant to the community.

Hydrolink is a printed & online publication in full colour (four issues per year), and is distributed to all IAHR members as a membership benefit. The online version is free to non-members.

Editor, Angelos Findikakis.

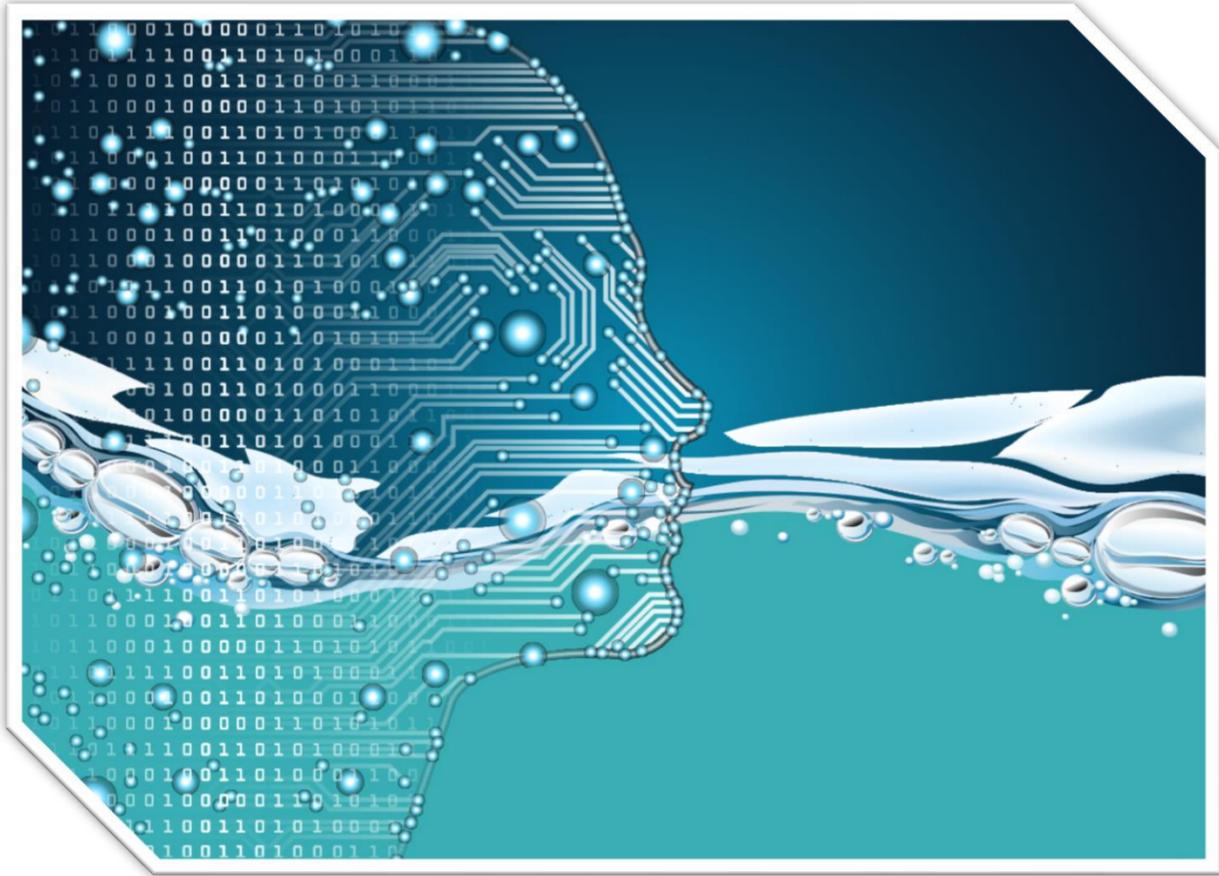

Editorial Assistant: Estíbaliz Serrano.

ISSN: 1388-3445

Publication Frequency: 4 issues per year.

- Non-members: € 425

OUR COMMUNITY: MORE THAN 5,000 ACTIVE MEMBERS AND 45,000 CONTACTS

MEMBERS

Working Groups & Institutional

We are more than 5,000 engineers, scientists and water experts from all countries in the world grouped in Working Groups & Technical Committees.

YOUNG PROFESSIONALS

More than 50 Young Professionals Networks

Hundreds of young water experts and engineers grouped together in networks to share knowledge and work together for science. Youth was never so important.

CONGRESSES

International events means international stakeholders

Thousands of participants from our events are carefully attentive and engaged to our periodical communications and activities.
